

G-Cubes has been specially designed to be easy to use even for non tech-savvy users. Minimal interaction is required between the user and app. You can perform standard tasks such as Orders, Invoicing, and POD, you can also develop specialized forms for surveys, etc. The real-time tracking of the user and tasks status gives end to end visibility to the business without any effort.

Just assign the task and see how G-Cubes helps you to transparently see the progress. Happy G-Cubing!
